

WHAT IS FAIR TRADE?

Fair Trade is an alternative way of doing business that builds equitable, long-term partnerships between consumers in North America and producers in developing countries all over the world. The income they earn through selling their products allows them to feed, clothe, shelter, educate, and provide health care to their families.

PRODUCTS AVAILABLE

Fair Trade products are available every Sunday in the narthex, or during the week in the church office. If you buy items from the office, please leave a note in the basket.
