

Why St. Paul's School is Unique

Did you know, the oldest member of St. Paul's Lutheran School, Hilda Fedeler, is 109 years old? She can still walk around her nursing home and play the piano! Just like Hilda, I have an amazing time at St. Paul's because we have many different opportunities. We get to learn about God and Jesus. Finally, our education is amazing.

We have many opportunities at St. Paul's. We get to learn Spanish from preschool - sixth grade! We also get Art, Music, and P.E.! We have cross-grade friends Bartels Friends too! In fifth and sixth grade, we get to go to Ewalu! You also get to go to Washington D.C.!

We get to learn about God and Jesus. We get to pray on average four times a day! We have Religion class once a week. We have worship once a week. Our offering goes to help many different charities. We can also talk about God freely.

St. Paul's provides an amazing education. Our class size varies from 24 to 12 kids in a class this year. There is one main teacher in each class

and some have an associate (s). At public schools there are a lot of kids in one class, but at St. Paul's there are fewer in one class. With a smaller class you get more one-on-one with the teacher. We have three preschools and Kindergarten-sixth grade. (Did you know we are the only ELCA Lutheran elementary school in Iowa and on this side of the Mississippi River?) Our Pastor, Arthur Burgan, reads to us once a month.

Lastly, St. Paul's is a very good school to go to. We have many opportunities. We get to learn about God and Jesus. We also have great education. That is why St. Paul's Lutheran School is unique.
