

Why I Love St.paul's School

Did you know that St.Paul's was built in 1872? Isn't that crazy? So that would make it 149 years old! That's a lot of spreading the word of god and helping others. At St.paul's we give offerings to those in need Other times we help the school. We also go on lots of field trips often to lots of different places. But finally we have Operation Christmas Child which is where we wrap up presents and send them to kids around the world who can't afford it.

I really like offering because we give to those in need. I also love when I hear what cause it's going to and it goes to a lot of places. Some of those places are Africa to make wells or even people who were hurt in natural disasters. I always feel warm when I hear where it's going. I just find it really unique and kind. Offering is a good way to give back to those in need.

One of the things I love the most about Operation Christmas Child is getting to personally pick and send the gifts. In 5th grade ,the students watch a video of the children getting their gifts and I love seeing how happy they are. It's really nice giving gifts to those in need or can't afford it. It's also a really good way to spread the word of God. You also get to write them a note, and tell them a little bit about yourself

In conclusion, I really like going to St. Paul's. We have offering, Operation Christmas Child and lots of field trips. I feel that St. Paul's is a very kind and fun School. Did you know that St.Paul's is the only ELCA elementary school in Iowa? I just love going to St.Paul's!
