

Why I am Glad I go to St. Paul's Lutheran School

St. Paul's Lutheran School is one of the most unique schools in the state. St. Paul's offers trips and fundraisers! St. Paul's is also full of tech used for learning! And finally, we have dozens of different ways we serve God! We are a fun school full of learning, God, and love!

The St. Paul's sixth graders make the whole clock tick with fundraisers and trips! First off, the sixth graders make cookies for all the students for a little trip money. At Christmas time, sixth graders start up a shop that sells presents for parents. Finally, the sixth graders use all the money to pay for the yearly trip to Washington D.C.! That is an extremely unique opportunity!

At St. Paul's, we have great technology! The students in third through sixth grade get chromebooks to do schoolwork on (you don't get to keep the Chromebook). Kindergarten through second grade have Ipads. Finally, we use this tech in just about all our classes and it helps online students! Our school is full of tech!

At St. Paul's we actively serve our God through many different ways. We also pray at least four times a day! We also have a weekly fun-filled worship every Thursday! Last but not least, we have religion class. Our school loves God!

For these reasons I love that I am glad to go to this particular school. For one, there are cool fundraisers and trips. For another, I love all the tech we have. Finally, I love that we can freely talk about our amazing God. After reading this, would you go to St. Paul's?
